## SIZES FOR NURSERY PLANTING

For the benefit of customers who wish to buy small plants to grow on for future use, we offer the following assortment of once and twice transplanted trees. This is the same stock which nurserymen buy for their own nursery plantings. Orders cannot be filled for long lists of miscellaneous quantities. Orders must conform to uniform bundles as indicated, bundles of 5 of a kind. These sizes are not suitable for immediate landscape use, but must be grown on in a garden or nursery for several years.

## HILL JUNIPER GRAFTS

For Delivery During April and May Only

(Order now for spring delivery--send money at shipping time)

For the benefit of customers who are interested in planting small Juniper grafts for future needs, we offer the following choice assortment. These trees are approximately 8 to 10 inches high, are removed from pots in which they have been grown and are individually wrapped to insure safe handling in shipment. These trees are not intended for landscape use, but are suitable to plant out in the garden to develop over a period of 3 or 4 years until they have reached a size suitable for landscape use.
